

**Log of changes to Service Descriptions** (last change: 29 March 2017)

**Purpose:**

The schedules of services are long documents that we send to each new client. For each subsequent engagement, we refer clients to the latest copy on our website. Separate schedules describe the services that we provide for personal tax (including sole traders), partnerships, companies, charities and unincorporated entities such as clubs.

This log is intended to help clients understand changes that have been made to the schedules so that you can decide which parts to reread each year.
